Export of Rifampicin, Ethambutol and Pyrazinamide

2534. SHRI CHITTA BASU:
DR. (SHRIMATI) SAROJINI MAHISHI:

Will the Minister of COMMERCE be pleased to state:

(a) whether it is a fact that export of drugs like Rifampicin, Ethambutol and Pyrazinamide are resorted to, to justify continued overinvoicing of the import of intermediates;

(b) whether it is also a fact that Rifampicin have been exported to Carlo Helm and other parties by a leading Indian producer at a price of $ 184 per Kg. to justify that the international price for Rifampicin is $ 190 per Kg.;

(c) if so, what are the details thereof;

(d) when import content per Kg. of production of Rifampicin was $ 209 per Kg. how exports can be made at $ 184 per Kg.;

(e) whether it is also a fact that this was done to prove that Rifampicin was not available from China, Bulgaria and other countries at a price of $ 145 per Kg. so that overinvoicing of intermediates continues; and

(f) if so, what steps have been taken to investigate the matter thoroughly?

THE MINISTER OF COMMERCE (SHRI DINESH SINGH): (a) to (f) Rifampicin, Ethambutol and Pyrazinamide are exported from India. Export of Rifampicin has started during the current year and the drug has been exported at an average price of US $ 160—170 per Kg. The

total exports of Rifampicin during April—December, 1988 were of the order of Rs. 12.40 lakhs and major countries of exports are Philippines, Taiwan, West Germany, Thailand and Bangladesh. Since raw materials required for production of Rifampicin are on OGL their prices are not monitored. In the background of certain allegations of over invoicing in the import of penultimate intermediate, the sale price of Rifampicin bulk drug was reduced from Rs. 3,000 per Kg. to Rs. 2,500 per Kg. as some quantities of Rifampicin were imported by IDPL at US $ 145 per kg.

Government have constituted a Committee to look into the entire issue regarding Rifampicin pricing keeping in view the imported price of various intermediates.

Import of Cancer Drugs

2536. CHOWDHARY RAM SEWAK:

DR. (SHRIMATI) SAROJINI MAHISHI:

Will the Minister of COMMERCE be pleased to state:

(a) whether it is a fact that anti-Cancer drugs such as Vinblastine and Vincrestine are allowed for import in the country;

(b) whether it is also a fact that these drugs are produced in the country from basic stages;

(c) whether it is also a fact that these drugs are exported to U.S.A., UK and other countries;

(d) if so, what was the quantity of each drug exported during the last two years, yearwise;

(e) whether it is also a fact that indigenous production can meet not only country's requirement but also can meet total world's requirement; and

(f) if so, what are the reasons for allowing imports by wasting valuable foreign exchange and thus destabilising indigenous industry?

THE MINISTER OF STATE IN THE MINISTRY OF COMMERCE (SHRI P. R. DAS MUNSHI): (a) Import of anti-cancer drugs such as Vinblastine Sulphate injection and Vincristine Sulphate injection are allowed for import under OGL.

(b) Yes, Sir.

(c) and (d) Export of drugs is allowed on decontrolled basis and without export licence. Particulars of imports & exports are published in the 'Monthly Statistics of Foreign Trade of India' Volume I & II, copies of which are available in the Parliament Library. Latest issue of the publication pertains to 1985-86.
